

PRATIBHA DEVI

A lady of substance, the phrase best suits Pratibha Devi. Despite of all atrocities and hardships she faced in her life, she never let her spirit and confidence down. In the past project of Handicraft in the Year 2014-15 in collaboration with TATA Motors Ltd, she was undoubtedly the most sincere and always ready to learn beneficiary. She opened up a stitching shop at her home and since then she is engaged in little tailoring work in the village

Her journey from a widow to a self dependent lady now is really inspiring. Her strong determination and will power removed every hurdle that came in her way to be an independent woman.

In the year 2015-16, we selected her as a beneficiary for our Component of Poultry Farming. And as expected, she again showed her full spirit and enthusiasm for the project. She was always present in all training sessions, worked hard in bringing up the chicks in a good and healthy condition. Infact the income generation she had from her backyard poultry is appreciable. She has started getting additional income from this as well

She has plans that given an opportunity in the future, she would be a part of such livelihood opportunities. SUVIDHA and TATA Motors Ltd wish her lots of success and a bright future.
